FIG. 15

A hand-drawn diagram of a software dialog box titled "PROPERTY". The dialog box has a standard window frame with a title bar and a close button (X) in the top right corner. It is divided into two main sections: "MONITOR" and "LOG".

The "MONITOR" section contains the following elements:

- A label "PRINTER MONITOR INTERVAL" followed by a text input field.
- A label "Hours" followed by a text input field containing the number "1".
- A label "minutes" following the "Hours" input field.
- A label "MONITOR ITEMS" followed by two radio buttons: one labeled "ERROR" (which is selected) and one labeled "ALL".

The "LOG" section contains the following elements:

- A label "LOG" followed by a horizontal line.
- A label "TRANS. LOG MAX. SIZE" followed by a text input field containing the number "100".
- A label "kByte" following the "TRANS. LOG MAX. SIZE" input field.

On the right side of the dialog box, there are two buttons: "OK" and "Close".

Item	Message
Subject:	CDS Message: Mail Address

## Mail Test Format

Field Name	Description
Customer mail address	Mail address of customer having printer whose status was gotten.
Information getting date and time	Date and time at monitor agent monitored. Format example: 1997/09/30 13:39:17
S/N	Serial number of printer.
Printer Status	Status code of printer monitored by monitor agent
Toner remaining amount	Toner remaining amount (%) in printer status.
Ink remaining amount 1	Ink remaining amount (%): Black
Ink remaining amount 2	Ink remaining amount (%): Cyan
Ink remaining amount 3	Ink remaining amount (%): Magenta
Ink remaining amount 4	Ink remaining amount (%): Yellow
Waste toner	Waste toner box use amount
Oil roll	Oil roll remaining amount
Photosensitive unit remaining life	Remaining life of photosensitive unit in printer status.
Total number of print sheets	Total number of print sheets.
Total number of print sheets in terms of monochrome print	Total number of print sheets in terms of monochrome print.
Color ratio	Color print ratio.

FIG. 39

FIG. 39 is a diagram of a "Status History Print" dialog box, labeled 56a. The dialog box has a title bar with the text "Status History Print" and a close button (X). Inside the dialog box, there is a "Printer Name" field with a dropdown arrow, currently displaying "EPSON LP-9200S". To the right of the "Printer Name" field are two buttons: "Print" and "Cancel". Below the "Printer Name" field is a "Print" label. Underneath the "Print" label is a radio button labeled "Five most recent status records", which is selected. Below this is another radio button labeled "Date Specification", which is unselected. To the right of the "Date Specification" radio button is a date selection interface consisting of a dropdown arrow and a series of six boxes separated by slashes, representing a date format (e.g., MM/DD/YYYY).

Information was generated:	Toner Remaining Amount Error Level	Status
97/11/04 12:30:00	80% 1	Idle (printable)
97/11/05 12:30:00	70% 1	Idle (printable)
97/11/06 12:30:00	55% 1	Idle (printable)
97/11/07	38% (predicted value)	Supply Required
97/11/08	20% (predicted value)	

A graph of a function on a coordinate plane. The function starts at the origin (0,0) and increases with a constant slope of 1 until it reaches the point (1,1). At this point, the function changes its slope abruptly, becoming steeper. The curve continues to rise, passing through approximately (2, 2.5) and (3, 4.5), suggesting a quadratic-like growth for  $x > 1$ . The function is continuous but not differentiable at  $x = 1$  due to the sharp corner.
